Nintendo Power First and Best!

First and best for ★ Tips ★ Cheats!

Baby Bowser's living up to his family name. He's stolen the Super Happy Tree and flattened Yoshi's Island into a 2D picture book. Luckily, six brave dinos have stepped forward to save their happy land from certain doom. That's where you come in...

Baby Bowser, the minx.

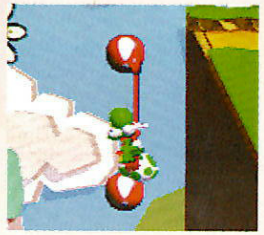
Advanced Controls And Tips

Super Shooting

Some Special Hearts seem impossible to reach. Don't worry! Yoshi can fire Eggs, so you'll be able to collect 'em as sure as Eggs is um, Eggs.

Bubble Busting

The normal way to burst bubbles is to shoot 'em. If you want to save Eggs for later, bounce on the bubbles and they'll literally burst themselves!



Elastic Snapping

Press the B button and Yoshi shoots his tongue in the direction your 3D Stick's pointing. Use it to climb Surprise Balls and eat enemies. Yum!

Secret Sniffing

Press the Right Shoulder button and Yoshi sniffs the floor. This is how he finds secrets. A slow sniff means nothing's near, a faster sniff means something's close. If Yoshi squeals and a '!' appears, he's close. When he waves at you, it's time to Ground Pound for a secret!

Exploding Eggs

When you throw an Egg, it explodes in the centre of the cursor. Often it isn't the Egg that kills enemies, but the explosion. The best bet is to aim an Egg in the middle of two enemies. This cunningly means that with a single explosion you can take 'em both out.

Happy Hero

When Yoshi eats six of the same fruits in a row, a Heart Fruit falls. Eat this and Yoshi becomes invincible. He can perform higher jumps and longer licks. Ground Pound when super happy and he can burst bubbles, change Shy Guys to Lucky Fruit and Chilli Peppers into coins.

Yoshi's Friends

Miss Warp

Bounce off a Warp to save. Jump off to appear at the next Warp you've woken. Jump off Warp four and you'll travel to the first smiley Egg.

Poochy

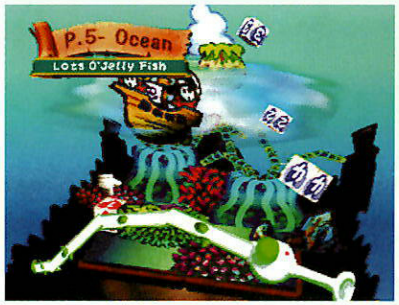
Poochy's a helpful friend. With his excellent nose he'll yelp when a secret item or area is close. And remember, a Poochy is for life, not just for Christmas.

White Shy Guy

Find the white Shy Guy and he'll follow you. Choose him on the Yoshi select screen and he'll rescue a dino from Bowser's castle.

Game Modes

There are two play modes. Story Mode's where our dino buddy makes his way through the pages of the storybook to defeat Baby Bowser. In Trial Mode you can go for high scores in specific pages.



Story Mode

Yoshi works his way from the start, through six pages (which contain four separate levels) to the end. To unlock extra levels you have to collect three Special Hearts in each level.

Trial Mode

The other option is Trial Mode, which allows you to enter levels with the sole aim of getting high scores. You can play in any order but, to play a level in Trial Mode, you must complete it in Story Mode.

High Scores

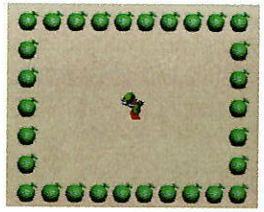
Story Mode doesn't give you everything. To get a high score in Trial Mode you must explore every nook and cranny. Take it from us, getting high scores on all 24 levels is a massive task!

Fruits — Know the score

Each dino has a Favourite Fruit, the same colour as the Yoshi you're using. There's a difference between Favourite and Lucky Fruit, though. Favourite Fruit stays the same depending on the Yoshi you're using, but the Lucky Fruit changes each time. Eating Favourite or Lucky Fruit earns more points than gobbling the first snack you find.

Shy Guy Highs

Shy Guys can be dealt with in a variety of ways. They can be Egged, Ground Pounded or eaten. You get high scores by beating Shy Guys the same colour as your Yoshi. Ground Pound near a Shy Guy 'til he changes into the colour you want. Your score improves more if you defeat more than one Shyster with a single Egg.

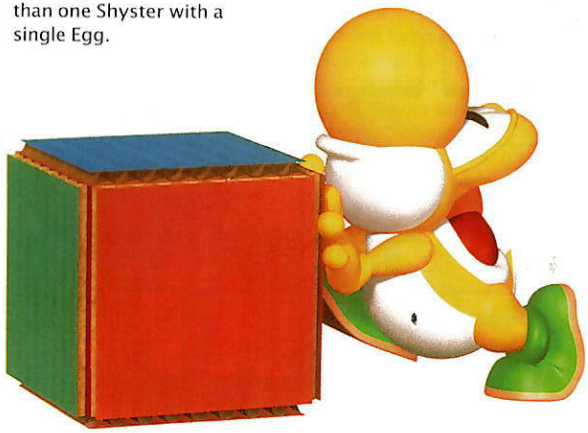


Melon madness

Eating Favourite and Lucky Fruits boosts your score, but eating green Melons is better. After beating the level you'll get 100 points for every light green Melon you noshed. Also, eating six Melons in a row in the order they appear will give you a Heart Fruit.

COOL TIP!

Choose a Yoshi whose Favourite Fruit isn't the same as their Lucky Fruit. If the fruit machine gives you bananas as your Lucky Fruit, don't choose the Yellow Yoshi: you get higher scores for eating different Favourite and Lucky fruits.



Alphabet Antics

Each level features coins that appear in the shape of a letter. Eat six Melons in the right order, along with the Heart Fruit that falls, and the coins will appear.

Fill the blank spaces as you find letters to see a personal message from Yoshi.
